This is the ideal year for study abroad. The student should consult with a full-time Japanese professor on which courses to take while abroad at Kansai Gaidai. Students earn 17 credits abroad.

The schedule below is for students studying abroad in the spring or during the fourth year, fall semester. If Advanced Japanese Language has not been taken, it is strongly recommended this semester.

FALL fourth year

This is *not* the ideal semester for study abroad. However, some students may find it necessary to study abroad this semester. Students studying abroad this semester must work in consultation with a full-time Japanese professor to conduct research for the senior capstone while abroad. The student should also consult with the professor on which courses to take while abroad. Students earn 17 credits abroad.

The schedule below is for students who studied abroad during the third year. All language majors must complete the sequence for the capstone research project. The student should complete MLC 491 this semester. Although it is technically possible for a student to simultaneously enroll in MLC 491 & 492 next semester, this should only occur *if absolutely necessary*. Students have failed to complete MLC 491 satisfactorily; waiting to enroll a student in MLC 491 in the spring puts the student's graduation schedule at serious risk.

Course No.	Course Title	Credit Hours
MLC 491	Senior Research <i>This is a priority. Students must enroll this semester unless it is absolutely impossible to do so.</i>	2
MLCJ 350	Advanced Japanese Language <i>Optional but strongly recommended. May serve as 1 of 2 major electives. Repeatable once for credit. Do not enroll twice in one year.</i>	3
Credits this semester		2-5
AC credits for the major		14-28
Credits earned abroad		17
Total AC & study abroad credits for the major		30-44

SPRING fourth year

This is the culmination of the major program in foreign languages. If the plan above has been followed, students will have at least enough credits to graduate at the end of the semester. The most significant course for the student this semester is MLC 492 (Senior Research Presentation). If a student did not complete MLC 491 satisfactorily last semester, or if the student did not enroll in MLC 491 for the fall semester (see warning above!), then the student *must* enroll in both MLC 491 & 492.

MLC 490 (Study Abroad Capstone Seminar) is recommended, but not required.

Course No.	Course Title	Credit Hours
MLC 492	Senior Research Presentation <i>This is a priority and requirement for all majors.</i>	2
MLC 491	Senior Research <i>As noted above, enrollment in MLC 491 & 492 this semester should only occur if it is absolutely unavoidable.</i>	2
MLCJ 350	Advanced Japanese Language <i>Optional but strongly recommended. May serve as 1 of 2 major electives. Repeatable once for credit. Do not enroll twice in one year.</i>	3
RELG 302	Studies in Eastern Religion or <i>Optional. May serve as 1 of 2 major electives.</i>	3
HIST 355	History and Memory of the Atomic Bombings <i>Optional. May serve as 1 of 2 major electives.</i> or <i>HIST 295 is a prerequisite for this course.</i>	3
MLC 490	Study Abroad Capstone Seminar <i>Take if needed or desired. This course may not be repeated for credit.</i>	1
Credits this semester		2-7
AC credits for the major		16-30
Credits earned abroad		16

Total AC & study abroad credits for the major	32*-46
*Student must have at least 35 credit hours for the major
