

Adrian College

Bulldog Culture of Care Pledge

As a family cares for its own, the Adrian College community of students, faculty, and staff accepts and supports each and every member.

During the COVID-19 pandemic, I understand that we need each member of the Adrian College community to take all necessary steps to protect oneself, each other, and the Adrian community in which we live, study, and work by following guidelines set forth by the CDC.

With gratitude for Adrian College's shared commitment to community and family spirit, I, therefore, pledge to do my part and take the steps necessary each day to keep myself, Adrian College, and my community safe by following public health guidance for supporting a healthy living and learning environment.

Together, we will make a difference
